

Computer Science & Engineering
Bachelor of Science in Engineering Program
Catalog Year 2023-2024

FRESHMAN YEAR

| First Semester | Credits | Second Semester | Credits |
|---|----------------|---|----------------|
| CHEM 1127Q - Gen. Chem. I | 4 | PHYS 1501Q - Engineering Phys. I | 4 |
| MATH 1131Q - Calculus I | 4 | MATH 1132Q - Calculus II | 4 |
| ENGL 1007 - Seminar in Writing | 4 | CSE 2050 - Data Structures & Object-oriented Design | 3 |
| CSE 1010 - Intro to Computing for Engineers | 3 | Area 2 (Social Science) | 3 |
| ENGR 1000 - Orientation to Engineering | 1 | Area 1 (Arts and Humanities) | 3 |
| | <u>16</u> | | <u>17</u> |

SOPHOMORE YEAR

| First Semester | Credits | Second Semester | Credits |
|--|----------------|--|----------------|
| PHYS 1502Q - Engineering Phys II | 4 | MATH 2410Q - Differential Equations | 3 |
| MATH 2110Q - Multivariable Calculus | 4 | CSE 3100 - Systems Programming | 3 |
| CSE 2500 - Intro to Discrete Systems | 3 | ECE 2001 - Electric Circuits | 4 |
| CSE 2301 - Principles & Practice of Digital Logic Design | 4 | PHIL 1104 (Area 1) - Phil. and Social Ethics | 3 |
| | <u>15</u> | Area 2 (Social Science) | 3 |
| | | | <u>16</u> |

JUNIOR YEAR

| First Semester | Credits | Second Semester | Credits |
|---|----------------|--|----------------|
| CSE 3140 - Cybersecurity Lab | 2 | CSE xxxx - Concentration course 1 | 3 |
| CSE 3666 - Intro to Computer Architecture | 3 | CSE 3504 - Prob. Perf. Analy. of Computer Sys. | 3 |
| CSE 3500 - Algorithms and Complexity | 3 | CSE 3000 - Contemporary Issues in CSE | 1 |
| Prob. and Stat.Course ¹ | 3 | CSE 3150 - C++ Essentials or | 3 |
| | | CSE 3160 - Functional Programming Fundamentals | |
| Area 4 (Diversity and Multiculturalism) | 3 | Math 2210Q-Linear Algebra | 3 |
| | <u>14</u> | Elective | 4 |
| | | | <u>17</u> |

SENIOR YEAR

| First Semester | Credits | Second Semester | Credits |
|-----------------------------------|----------------|---|----------------|
| CSE 4939W - CSE Design Project I | 3 | CSE 4940 - CSE Design Project II | 3 |
| CSE xxxx - Concentration course 2 | 3 | CSE xxxx - Concentration course 4 | 3 |
| CSE xxxx - Concentration course 3 | 3 | CSE Elective ² | 1 |
| Elective | 3 | Elective ³ | 4 |
| Elective | 3 | Area 4 (Diversity and Multiculturalism) | 3 |
| | <u>15</u> | | <u>14+</u> |

Additionally, the program must include 1) one W course other than CSE 4939W, which may be used to satisfy other requirements or Free Electives, and 2) one E course of at least three credits in Environmental Literacy.

¹ One of MATH 3160, STAT 3025Q, STAT 3345Q, or STAT 3375Q

² As needed to reach a minimum of 50 CSE credits.

³ As needed to reach a minimum of 126 credits.

Computer Science & Engineering Concentration Requirements

Every CSE major must satisfy the requirements for a concentration. A concentration consists of four courses within a defined set of alternatives (one or more of the courses may be required for the concentration). A student must declare a single concentration to count toward graduation; that is the one that will be listed on his or her transcript. There are currently 9 concentrations available, these are listed below. For information about the concentration requirements, see the [*Guide to Course Selection*](#).

Concentration 1: Algorithms and Theory

Concentration 2: Systems and Networks

Concentration 3: Cybersecurity

Concentration 4: Bioinformatics

Concentration 5: Software Design and Development

Concentration 6: Computational Data Analytics

Concentration 7: Naval Science and Technology

The concentration in Naval Science and Technology is designed to expose students to engineering concepts and topics of importance to the Navy and industries that support naval science and technology. It is focused on facilitating interactions between students and naval professionals as well as hands-on and experiential activities related to senior design projects or independent study projects that have naval science and technology connections.

Concentration 8: Unspecialized

For the Unspecialized concentration, students must take required courses from 3 different concentrations, plus any other 2000+ level CSE course not used to fulfill another requirement.

Concentration 9: Individually Designed

Students may propose an individually-designed concentration to fit their academic or career interests. This will be a minimum of 12 credits at the 2000+ level, proposed by the student and approved by the student's advisor and the CSE Department Undergraduate Committee. The expectation is that such a concentration will have a strong unifying theme. This may include non-CSE courses, but the student will still be subject to the overall requirement of 50 CSE credits.
