2023 ENGINEERING SCHOLARSHIP

# Awards

**Kazem Kazerounian**  
Dean, School of Engineering

## WELCOME FROM THE DEAN

Each year nearly 100 companies, individuals and organizations generously donate towards one of our most important goals—supporting the education of our talented students. Every year we get to celebrate the accomplishments of our students and the generosity and trust of the donors in us during our annual Engineering Scholarship Awards ceremony.

All of you receiving scholarships are the shining stars of our school—showing excellence in academics and community engagement. The work you have done so far has been impressive, and the recognition you are receiving is a testament to the countless hours you spent setting and reaching the goals you set out for yourself.

Make sure to reflect on all the hard work you have put in so far, and we look forward to seeing what your future holds.

## Engineering Majors Key

<b>BME</b>	Biomedical Engineering
<b>CE</b>	Civil Engineering
<b>CBE</b>	Chemical & Biomolecular Engineering
<b>CompE</b>	Computer Engineering
<b>CSCI</b>	Computer Science
<b>CSE</b>	Computer Science & Engineering
<b>EE</b>	Electrical Engineering
<b>EGPHY</b>	Engineering Physics
<b>ENVE</b>	Environmental Engineering
<b>ME</b>	Mechanical Engineering
<b>MDE</b>	Multidisciplinary Engineering for Manufacturing
<b>MEM</b>	Management & Engineering
<b>MSE</b>	Materials Science & Engineering
<b>RE</b>	Robotics Engineering

## Other Majors

<b>BIO</b>	Biological Science
<b>CogSci</b>	Cognitive Science
<b>DMD</b>	Digital Media & Design
<b>MCB</b>	Molecular & Cell Biology
<b>PSY</b>	Psychology

Each student's major and year is based on data provided at the time of their spring 2023 application.

---

The Vergnano Institute for Inclusion is a proactive and adaptive organization with distributed governance that will nurture and sustain an anti-racist and anti-discriminatory culture. The Institute is a resource for the School of Engineering and the communities it serves to empower people from all backgrounds. Inspired by the strength of diversity and inclusion, it is an equity-minded community where engineers innovate and change the world for the better.

# 2023 EXPLORE ENGINEERING SCHOLARSHIPS

---

We held Explore Engineering this year in person at the Storrs Campus. There were 64 participants, and we were able to award 50% of the applicants with need-based financial aid.

# 2023 SPARK SCHOLARSHIPS

There was a total of 81 students in SPARK this year - week 1: 16 students, week 2: 16 students, week 3: 25 students, week 4: 24 students. The School of Engineering gratefully acknowledged the generous support of the Petit Foundation, and Dr. Lexi Hain and her NAVY STEM grant in funding the “SPARK” scholarships. Their financial support allowed us to keep the SPARK tuition low for all participants, enabling us give financial aid award 50% of the applicants.

## 2023 BRIDGE PROGRAM SCHOLARSHIPS AWARDS

BRIDGE is a five-week intensive summer program held at the Storrs campus. This program is designed to prepare students who are underrepresented in engineering fields for the rigor of engineering curriculum at UConn, introduce leadership opportunities and careers in engineering, and to familiarize students with the University and the college experience as a whole.

Students will attend classes in Calculus, Physics, Chemistry, and Computer Science. In addition to these classes, students will attend industry tours of the most prominent engineering companies in Connecticut to network with professionals and learn about what career opportunities are available after graduation. The BRIDGE program highlights the necessity of having a strong work ethic and dedication to academics as a student in the School of Engineering.
